

## LIST OF CONTENTS

ABSTRACT .....	I
الخلاصة.....	III
<i>DEDICATION</i> .....	VI
ACKNOWLEDGEMENT .....	VII
LIST OF FIGURES .....	XI
LIST OF TABLES .....	XII
LIST OF ABBREVIATIONS .....	XIV
<b>Chapter One: Introduction .....</b>	<b>1</b>
1.1 General Background .....	2
1.2 Problem Identification .....	3
1.3 Research Objectives .....	3
1.4 Research Motivations.....	4
1.5 Research Methodology .....	4
1.5.1 Structured Interviews.....	4
1.5.2 Lab analyses .....	4
1.5.2.1 Methods of laboratory analysis .....	5
1.5.2.2 Isotopic analyses .....	5
1.5.2.3 Software application .....	5
1.6 Literature Review .....	5
<b>Chapter Two: Description of the Study Area .....</b>	<b>10</b>
2.1 Location of the study area .....	11
2.2 Population .....	12
2.3 Soils .....	13
2.4 Climate .....	13
2.5 Rainfall.....	13
2.6 Geology and Stratigraphy of Soreq Catchment .....	15
2.7 Description of the springs .....	19

<b>Chapter Three: Hydrochemistry.....</b>	<b>22</b>
3.1 Introduction .....	23
3.2 Field work, water sampling, analyses and field measurement .....	23
3.3 Interpretation of the analyzed parameter .....	24
3.3.1 Physical properties .....	24
3.3.1.1 Temperature .....	24
3.3.1.2 pH .....	25
3.3.1.3 Total dissolved solids.....	25
3.3.1.4 Electrical Conductance (EC).....	26
3.4 Hydro-Chemical properties .....	28
3.4.1 Cations.....	28
3.4.2 Anions.....	31
3.4.3 Heavy elements (Trace elements).....	33
3.5 Microbiological analysis .....	38
3.5.1 Fecal Coliform Bacteria .....	39
3.5.2 Total Coliform Bacteria .....	39
3.6 Water origin .....	40
3.6.1 Springs water classification .....	40
3.6.1.1 Piper diagram .....	40
3.6.1.2 Water Type.....	42
3.7 Spring water suitability for different purposes .....	43
3.7.1 Spring water suitability for human drinking purposes.....	43
3.7.2 Spring water suitability for agricultural and irrigation purposes .....	44
3.7.2.1 EC.....	44
3.7.2.2 Salinity / TDS .....	45
3.7.2.3 Soluble sodium percentage (SSP) or % Na .....	47
3.7.2.4 Total Hardness (TH).....	48
3.7.2.5 Sodium Adsorption Ratio (SAR).....	49
3.7.3 Ion Distribution and chemical composition .....	51

3.8 Hydrochemical characteristics between Albian and Lower Cenomanian formation.....	52
3.9 Soreq catchment compared with Salman catchment.....	52
<b>Chapter Four: Isotopes .....</b>	<b>53</b>
4.1 Environmental Isotopes .....	54
4.2 Stable Isotopes of Water.....	54
4.3 Sampling Methods and Isotope Analyses .....	56
4.3.1 Deuterium and <sup>18</sup> O .....	56
4.3.1.1 Deuterium .....	56
4.3.1.2 Oxygen – 18.....	57
4.4 Comparison with other catchments.....	57
4.5 Relationship between <sup>18</sup> O and <sup>2</sup> H.....	58
<b>Chapter Five: Conclusion and Recommendations .....</b>	<b>59</b>
5.1 Conclusion .....	60
5.2 Recommendations .....	62
<b>References : .....</b>	<b>63</b>
<b>Appendix : .....</b>	<b>68</b>
Appendix 1: Names and Locations of samples springs of the study area .....	68
Appendix 2: Hydrochemical Parameters in Soreq springs .....	69
Appendix 3a: Cations and Anions of the spring water in the Soreq catchment .....	70
Appendix 3b: Trace Elements (ppm) in Soreq Springs .....	71
Appendix 4: Classification of water salinity in Soreq springs, based on EC and TDS .....	72
Appendix 5: Classification Water of Soreq springs according to TH (mg/L) .....	73
Appendix 6: Water type in Soreq springs (dry and wet season).....	74
