Title	Page
ACKNOWLEDGEMENT	i
CONTENTS	ii
LISTS OF TABLES	vi
LIST OF FIGURES	vii
ABSTRACT IN ARABIC	viii
ABSTRACT IN ENGLISH	x
CHAPTER ONE: INTRODUCTION	
1.1 Overview	2
1.2 Study Objectives	6
1.3 Importance of the study	7
1.4 Study Limitations	9
1.5 Terms Definitions	9
CHAPTER TWO: LITERATURE REVIEW	
Introduction	13
2.1 Conceptual Framework	13
2.1.1 Meaning of quality	13
2.1.2 Costs of quality	19
2.1.3 Approaches for assessing and measuring costs of quality	31

2.1.3.1 Costs of quality models	36
2.1.3.2 Costs of quality parameters	41
2.1.3.3 Costs of quality metrics	42
2.1.3.4 Costs of quality in practice	43
2.1.4 Effect of quality awareness level on quality improvement level	44
2.1.5 Activity-based costing (ABC) model	52
2.2 Empirical evidences	56
2.3 The context of Palestine	61
2.3.1 Level of quality awareness existing among the Palestinian manufacturing organizations	61
2.3.2 Costing systems implemented at the Palestinian manufacturing organizations	64
2.3.3 Real situation at food manufacturing sector in Palestine	67
 CHAPTER THREE: RESEARCH METHODOLOGY	
Introduction	71
3.1 Type of study	71
3.2 Study procedures	72
3.2.1 Preparatory study	72
3.2.2 Model building	73
3.2.3 Model application	75
3.3 Methodology discussion	77
3.4 Data source & collection	79

3.5 Study questions	80
3.6 Data analysis	81
3.7 The reliability of the study	81

CHAPTER FOUR: EMPIRICAL FINDINGS

Introduction	84
--------------	----

PART ONE

4.1 The implementation of phase 1 of the built-on activity-based COPQ model: Determine COPQ	86
4.1.1 Step 1: Define the scope	86
4.1.2 Step 2: Identify quality-related activities	87
4.1.2.1 Quality-related activities: Selection rules	87
4.1.3 Step 3: Establish quality-related activity and cost driver relationships	88
4.1.4 Step 4: Assess overhead cost categories	88
4.1.5 Step 5: Collect and allocate overhead costs to activities	89
4.1.6 Step 6: Allocate activity costs to production line	91
4.1.7 Step 7: Include direct costs (scrap & rework costs)	91
4.1.8 Step 8: Categorize and determine output COPQ	93
4.1.8.1: Effect of total COPQ on break-even point	94

PART TWO

4.2 The implementation of phase 2 of the built-on activity-based COPQ model: Initiate improvement projects	96
4.2.1 Step 9: Identify opportunities for improvement	96

4.2.2 Step 10: Prioritize improvement areas	96
4.2.3 Step 11: Initiate improvement projects	97
4.3 Conclusion	98
 CHAPTER FIVE: CONCLUSIONS	
Introduction	100
5.1 Conclusions	100
REFERENCES	105
APPENDICES	112
Appendix 1: Quality costs worksheets	113
Appendix 2: Tables	123
