

Table of Contents

List of Figures	VI
Abstract	VIII
الملخص	X
 CHAPTER 1: Introduction	 1
1.1 Dynamical System	4
1.2 Discrete-Time Systems	6
1.3 Linear System	8
1.4 Difference Equations	9
1.4.1 Identical Difference Equations	11
1.4.2 Order of Difference Equations	11
 CHAPTER 2: Solution to Difference Equations	 12
2.1 Solution to Linear First Order Difference Equations	13
2.2 Solution to Linear Difference Equations of Higher Order	15
2.2.1 Solution of a k-th Order Homogeneous Linear Difference Equations with Constant Coefficients	15
2.3 Solution to Nonlinear Difference Equations	19

CHAPTER 3: Behavior of Solutions for Difference

Equations	20
3.1 Behavior of Solutions for First Order Linear Discrete Dynamical System with Constant Coefficient	21
3.1.1 Equilibrium of Difference Equation	21
3.1.1.1 Equilibrium to Linear First Order Difference Equations	21
3.1.2 Stability of Difference Equations	23
3.1.2.1 Stability to linear First order Difference Equations	23
3.2 Behavior of Solutions for Second Order Linear Discrete Dynamical System with Constant Coefficient	30

CHAPTER 4: Dynamics of a k-th order Rational Difference Equation Using Theoretical and

Computational Approaches	33
4.1 Introduction and Preliminaries	34
4.1.1 Statement of the Problem	34
4.1.2 Equilibrium of k-th order Rational Difference Equation	35
4.1.3 Stability of k-th order Rational Difference Equation	36

4.1.4 semicycle of a solution of k-th order Rational Difference Equation	37
4.1.5 Linearization of k-th order Rational Difference Equation	37
4.2 Change of Variables	42
4.3 Equilibrium Points	44
4.4 Linearization	45
4.5 Local Stability	47
4.6 Existence of a Two Cycles	49
4.7 Analysis of Semicycles and Oscillations	53
4.8 Attracting Intervals	54
4.9 Global Stability Analysis	55
 CHAPTER 5: Computational Approaches	57
5.1 Numerical Examples	58
5.1.1 First Order Deference Equation	59
5.1.2 Second Order Deference Equation	65
5.1.3 Third Order Deference Equation	71
5.1.4 Forth Order Deference Equation	77
5.2 MATLAB mfile	83
Conclusion	92
References	94
