

Table of Contents

<u>Chapter</u>	<u>Page</u>
1 Introduction and Review of Literature.....	1
1.1 <i>Salmonella</i> spp.	1
1.2 <i>Salmonella</i> Morphology and Characteristics.....	2
1.3 <i>Salmonella</i> Pathogenesis	3
1.4 Mechanisms of Diarrhea.....	6
1.5 Factors Influencing Infection	7
1.6 <i>Salmonella</i> in Food	8
1.7 Epidemiology of <i>Salmonella</i>	13
1.8 Therapy.....	17
1.9 Quinolone Resistance in <i>Salmonella</i> spp.....	18
1.9.1 Quinolones Structure.....	18
1.9.2 Mechanism of Action and Spectrum of Activity.....	19
1.9.3 Pharmacology.....	20
1.9.4 Quinolone Resistance.....	21
1.10 Specific Aims.....	24
2 Materials and Methods.....	25
2.1 Bacterial Strains.....	25
2.2 Study population.....	25
2.3 Laboratory diagnosis	29
2.3.1 Routine analysis.....	29
2.3.2 Bacterial culture	29
2.3.3 <i>Salmonella</i> identification.....	29
2.4 Antimicrobial Susceptibility Testing	30
2.5 Detection of <i>gyrA</i> by PCR	31
2.5.1 Sample preparation.....	31
2.5.2 PCR mixture preparation.....	32
2.5.3 DNA amplification.....	32
2.6 DNA Restriction and Agarose Gel Electrophoresis	33
2.6.1 <i>HinfI</i> restriction fragment length polymorphisms.....	33

2.6.2	Agarose gel electrophoresis.....	33
2.7	DNA Sequencing	33
3	Results	34
3.1	Biochemical Identification and Serotyping.....	35
3.2	Antimicrobial susceptibility.....	36
3.3	PCR Results.....	44
3.4	Sequencing Results.....	45
4	Discussion	51
5	Recommendations.....	57
6	References.....	58
