

Table of contents

Chapter	page
I- Introduction	1
• Etiology of autoimmune diseases	2
-Intrinsic factors	
i. Genetics	2
ii. Gender	3
iii. Hormones	3
iv. Race	3
v. Age	4
-Environmental factors	4
• Classification of autoimmune diseases	5
-Systemic	5
-Organ -specific	5
• Involvement of immune system in autoimmune mechanisms	6
• Role of innate mechanisms	11
• CTLA4	11
• Genetics of CTLA 4	14
• Genetics of autoimmune diseases	14
• Literature review	18
• CTLA 4 genotype correlation to Treg frequency	19
• Hypothesis	20
• Objectives	20
Chapter II	
• Materials and methods	21
-Study subjects	21
-Sample collection	22
-DNA extraction	22

-Procedure	23
I. PCR and single nucleotide polymorphism	24
Chapter III	
• Results	28
-CT60 mutation	28
-A/G 49 mutation	29
Chapter IV	
• Discussion	31
References	33
Annex I	37
Annex II	39
