TABLE OF CONTENTS

	Page
ACKNOWLEDGEMNET	I
ABSTRACT	II
TABLE OF CONTENTS	IV
LIST OF FIGURES	VII
LIST OF TABLES	VIII
LIST OF ABBREVIATIONS	IX
CHAPTER ONE: INTRODUCTION	
1.0 BACKGROUND	1
1.1 OBJECTIVE OF THE STUDY	3
1.2 HYPOTHESIS	3
CAHPTER TWO: LITRETURE REVIEW	
2.1 WASTE STABILIZATION POND	4
2.1.1 General	4
2.1.2 Algae Based Pond	4
2.1.3 Duckweed Based Pond	5
2.2 WASTE STABILIZATION POND OPERATION	6
2.2.1 Treatment In Anaerobic Stabilization Ponds	6
2.2.2 Treatment In Facultative Ponds	6
2.2.3 Treatment In Maturation Ponds	7
2.3 BIOLOGICAL NITROGEN TRANSFORMATIONS	7
2.3.1 Assimilation	8
2.3.2 Ammonia Volatilization	9

2.3.3 Nitrification..... 9

2.3.3.1 Nitrification kinetics..... 10

2.3.3.2 Environmental factors affecting nitrification rate..... 10

2.3.4 Denitrification..... 11

2.3.4.1 Denitrification kinetics..... 12

2.3.4.2 Environmental factors affecting denitrification rate..... 13

2.4 REVIEW OF RELATED STUDIES ON NITROGEN REMOVAL..... 14

CHAPTER THREE: MATERIALS AND METHOD

3.1 EXPERIMENTAL PILOT PLANT SETUP..... 16

3.1.1 OPERATION OF PILOT PLANT SYSTEM..... 17

3.1.2 SAMPLING..... 17

3.3.2.1 Analytical methods..... 18

3.2 NITRIFICATION AND DENITRIFICATION RATES..... 18

3.2.1 Nitrite - Nitrate Mass Balance..... 18

3.2.1 Experiment 1: Out door batch reactor incubations..... 20

3.2.1 Experiment 2: In situ pilot plant incubations..... 21

CHAPTER FOUR : RESULTS AND DISCUSSION

4.1 RESULTS..... 22

4.1.1 Environmental Conditions In The Pond..... 22

4.1.2 Experiment 1: Out door Batch Reactor Incubation..... 24

4.1.3 Experiment 2: In Situ Pilot Plant Incubation..... 28

4.2 DISCUSSION..... 31

4.2.1 Nitrification Rate And Effect Of Environmental Factors..... 31

4.2.2 Effect Of Shading on Nitrification and Denitrification Rate 34

4.2.3 Denitrification Rate and Effect Of Environmental Factors..... 35

CHAPTER FIVE: CONCLUSIONS AND RECOMMENDATIONS

5.1 CONCLUSIONS..... 39

5.2 RECOMMENDATIONS..... 40

REFERENCES..... 41

APPENDICES..... 45

ABSTRACT IN ARABIC.....
