Contents

SUMMARY ..... *XI*
ACKNOWLEDGEMENTS ..... *XV*

CHAPTER 1: INTRODUCTION *1*
1.1 Background 1
1.2 Problem description 3
1.3 Objective 3
1.4 Scope of the study 3
1.5 Approach of the Study 4
1.5.1 Fieldwork in Jordan and Tunisia 4
1.5.2 Preparation and pilot testing of questionnaires 5
1.5.3 Selection and size of sample 6
1.5.4 Reliability of collected data 6
1.6 Structure of the thesis 7
1.7 References 8

CHAPTER 2: A CONCEPTUAL FRAMEWORK FOR ANALYSIS OF WASTEWATER UTILIZATION *11*
2.1 Introduction 11
2.2 Wastewater utilization 11
2.2.1 General 11
2.2.2 Wastewater production 12
2.2.3 Wastewater collection 13
2.2.4 Wastewater treatment 13
2.2.5 Wastewater reuse 20
2.3 Quantification of achievements in wastewater utilization 22
2.3.1 Background 22
2.3.2 Wastewater Reuse Index (WRI) 23
2.4 The incentive systems for improved utilization of reclaimed wastewater 26
2.5 Conclusions and recommendations 27
2.6 References 28

CHAPTER 3: THE STUDY AREA *31*
3.1 Jordan 31
3.1.1 Population, topography, and climate 31
3.1.2 Water resources 32
3.1.3 Agriculture 36
3.1.4 Water supply, sanitation, and reuse 38
3.2 Tunisia 43
3.2.1 Population, topography, and climate 43
3.2.2 Water resources 43
3.2.3 Agriculture 47
3.2.4 Water supply, sanitation, and reuse 47
3.3 References 56

CHAPTER 4 PERFORMANCE AND COST OF WASTEWATER TREATMENT IN JORDAN AND TUNISIA *59*
4.1 Introduction 59
4.2 Objective 60
4.3 Technical performance of the treatment systems 61
4.3.1 Data collection and analysis 61
4.3.2 Effluent quality 65
4.3.3 Land requirement 72
4.4 Financial performance of the treatment plants 73
4.4.1 Analysis 73
4.4.2 Capital costs of treatment (CAPEX) 74
4.4.3 Operation and maintenance costs of treatment (OPEX) 76
4.4.4 Total costs of treatment (TOTEX) and economies of scale 81
4.5 The enabling environment for wastewater treatment 83
4.5.1 Approach 83

4.5.2 Regulatory and institutional framework 83
4.5.3 Financial capability 86
4.5.4 Technical capacity to manage wastewater treatment 88
4.6 Conclusions and recommendations 89
4.7 References 92

CHAPTER 5: THE INCENTIVE SYSTEMS FOR USE OF RECLAIMED WASTEWATER IN IRRIGATED AGRICULTURE 95

5.1 Introduction 95
5.2 Objective and approach 96
5.3 Results and discussion 97
5.3.1 Identifying the factors that influence utilization of reclaimed wastewater 97
5.3.2 Quantity of available reclaimed wastewater 99
5.3.3 Quality of the reclaimed wastewater 103
5.3.4 Financial and economic impact 114
5.3.5 Institutional and legal framework 118
5.3.6 Survey of the socio-cultural factors in wastewater reuse for irrigation 121
5.4 Conclusions and recommendations 134
5.5 References 136

CHAPTER 6: VIABILITY OF INCREASING THE TARIFF OF FRESHWATER FOR IRRIGATION AS A TOOL TO STIMULATE WASTEWATER REUSE 141

6.1 Background 141
6.2 Problem description 143
6.3 Objective and methodology 145
6.3.1 Objective 145
6.3.2 Methodology 145
6.4 Results and discussion 146
6.4.1 Agricultural profitability at the existing water tariffs 146
6.4.2 Effect of increased irrigation water tariffs on agricultural profitability 150
6.5 Conclusions and recommendations 155
6.6 References 156

CHAPTER 7: WILLINGNESS OF FARMERS TO PAY FOR RECLAIMED WASTEWATER 159

7.1 Background 159
7.2 Problem description 159
7.3 Objective, hypotheses, and methodology 161
7.3.1 Objective 161
7.3.2 Hypotheses 161
7.3.3 Methodology 161
7.4 Results and discussion 162
7.4.1 Descriptive analysis of WTP 162
7.4.2 Regression analysis of WTP 165
7.5 Conclusions and recommendations 169
7.6 References 169

CHAPTER 8: CONCLUSIONS 173

8.1 Unbalanced reclaimed-wastewater market 173
8.2 The incentive systems for wastewater treatment 175
8.3 The incentive systems for using reclaimed wastewater in irrigated agriculture 178
8.4 The way forward? 184

ANNEXES 187

Annex A: Maps 189
A.1: Global location of the MENA region 189
A.2: Countries of the MENA region 190
A.3: Country map of Jordan 191
A.4: Country map of Tunisia 192
Annex B: Development indicators 193
B.1: MENA development indicators 193
B.2: Jordan development indicators 194
B.3: Tunisia development indicators 195

B.4: Water availability and usage in the MENA region 196
B.5: Worldwide net renewable water distribution by region and per capita 196
Annex C: Characteristics of the surveyed wastewater treatment plants 197
C.1: WWTPs in Tunisia (2000) 197
C.2: WWTPs in Jordan (1999) 198
C.3: Technical performance of surveyed WWTPs 212
C.4: Operational costs (OPEX) of the surveyed WWTPs 213
C.5: Standardization of capital costs (CAPEX) of the surveyed WWTPs 214
C.6: Unit cost of wastewater treatment 215
Annex D: Research questionnaires 216
D.1: Administrators' questionnaire 216
D.2: List of data on wastewater treatment plants 217
D.3: Farmers' questionnaire 222
D.4: Households' questionnaire 224
Annex E: Agronomics of reclaimed wastewater and freshwater for restricted and unrestricted irrigation 225
