

## Contents

	<b>Page</b>
<b>1 Chapter One: Introduction</b>	<b>1</b>
1.1 Background	2
1.2 Research Objectives	2
1.3 Thesis Structure	2
1.4 Problem statement	3
<b>2 Chapter Two: Methodology</b>	<b>4</b>
2.1 General	4
2.2 People concerns about solid waste facilities in Nablus and Jenin districts	5
2.2.1 Questionnaire	5
2.2.2 Sample size	5
2.2.3 Data collected	7
2.3 Mathematical modelling	8
2.3.1 Data collected	8
<b>3 Chapter Three: Literature Review</b>	<b>9</b>
3.1 Study area	9
3.1.1 Nablus district	10
3.1.2 Jenin district	11
3.2 Solid waste management	13
3.3 Solid waste management in Palestine	14
3.4 People concerns of solid waste management	15
3.5 Solid waste management problems	17
3.6 Solid waste generation and composition	18
3.7 Mathematical modelling for prediction SW generation and composition	22
<b>4 Chapter Four: Results and Discussions</b>	<b>24</b>
4.1 The assessment of people's concerns and attitudes to SWM facilities	24
4.1.1 Profile of respondents	24
4.1.2 Factor analysis	30
4.1.3 Attitude toward SWM facilities	34
4.1.3.1 Relation with concerns	34
4.1.3.2 Association analysis between attitude and concern	37
4.1.3.3 Discriminant analysis	39
4.1.4 Influence of respondent attributes to acceptability of SWM facilities	43
4.1.4.1 Correlation with personal attribute	43
4.1.4.2 Correlation with experience of visiting a facility	48
4.2 Mathematical model development to predict generation rates and compositions of municipal solid waste	51
4.2.1 Solid waste generation rate and composition	51
4.2.2 Multiple regression predictive models	54

4.2.3	SW prediction and numerical example	61
5	<b>Chapter Five: Conclusions and Recommendations</b>	63
5.1	Conclusions	64
5.2	Recommendations	63
	References	64
	Appendix A	68
	Appendix B	75
	الملخص	79
