

Finally, the study recommends imposing laws and policies to regulate the relations between all institutions involved in industrial solid waste management sector in order to create an integrated system for the industrial solid waste management.

Table of contents

Dedication.....	iii
Acknowledgments.....	iv
المستخلص.....	v
Abstract.....	vii
Table of contents.....	x

List of Tables.....	vix
List of Figures.....	vx
List of Acronyms.....	xvi
1. Chapter One: Introduction.....	1
1.1 Thesis structure.....	1
1.2 Background.....	1
1.3 Constraints and restrictions in SWM.....	3
1.3.1 Political level.....	3
1.3.2 Legislative and organizational levels.....	3
1.3.3 Technical and environmental levels.....	4
1.3.4 Financial level.....	4
1.4 Cleaner production concept.....	5
1.5 Goal and Objectives.....	8
1.6 Characteristics of the study area.....	9
1.6.1 Location.....	9
1.6.2 Demographic features.....	10
1.6.3 Topography.....	11
1.6.4 Local bodies.....	12
1.6.5 Land Use.....	14
1.6.6 Hydrology.....	14
1.6.6.1 Water Resources (springs and wells).....	14
1.6.6.2 Precipitation.....	15
1.6.6.3 Climate.....	16
1.6.6.3 Temperature and Humidity.....	16

1.7	Economic situation in the governorate.....	17
1.8	Industrial sector and development.....	18
2.	Chapter Two: Literature Review.....	21
2.1	Introductory remarks.....	21
2.2	Industrial Solid Waste Management in developed Countries.....	22
2.3	Industrial Solid Waste Management in developing Countries.....	23
2.4	Industrial solid waste management overview.....	24
2.5	Cleaner production overview.....	29
3.	Chapter Three: Research Methodology.....	33
3.1	Survey design.....	33
3.2	Database for surveys.....	34
3.3	Sample size.....	35
3.4	Industrial solid waste generation rates.....	36
3.5	Industrial solid waste management indicators.....	36
3.5.1	Temporary storage indicator (TSI)	37
3.5.2	Collection and transfer indicator (CTI).....	37
3.5.3	Treatment and final disposal indicator (TFDI).....	38
3.5.4	Clean product indicator (CPI).....	39
3.5.5	Safety and security indicator (SSI).....	39
3.5.6	Policy obstacles for cleaner product indicator (POCPI).....	40
3.5.7	Financial obstacles for cleaner product indicator (FOCPI).....	41
3.5.8	Technical obstacles for cleaner product indicator (TOCPI).....	41
3.5.9	Administrative obstacles for cleaner product indicator (AOCPI).....	42
3.6	Statistical analysis.....	43
4.	Chapter Four: Results and Discussion.....	44

4.1	Responsibility of ISWM in the study area.....	44
4.2	ISWM practices on locality level.....	45
4.2.1	ISW collection and transferring.....	45
4.2.2	ISW temporal storage.....	48
4.2.3	ISW treatment, processing, and final disposal.....	48
4.2.4	Coordination between localities and authorities.....	51
4.2.5	Financial Aspects.....	52
4.2.6	Labors in SWM sector.....	52
4.3	Characteristics of respondents and Factories.....	53
4.3.1	Characteristics of localities respondents.....	53
4.3.2	Characteristics of factories respondents.....	54
4.3.3	Characteristics of factories.....	54
4.4	ISWM practices on factory level.....	57
4.4.1	ISW generation.....	57
4.4.2	ISW temporal storage.....	59
4.4.3	ISW collection and transferring.....	59
4.4.4	Treatment, processing, and final disposal.....	63
4.5	Safety and security of factory labors.....	67
4.6	Cleaner production principles application.....	67
4.7	Industrial solid waste management performance indicators.....	69
5.	Chapter Five: Conclusions and Recommendations.....	76
5.1	ISWM practices on locality level.....	77
5.2	ISWM practices on factory level.....	77
5.3	Industrial solid waste management performance indicators.....	79
5.4	Recommendations.....	80

6.	References.....	83
7.	Annex 01: Localities questionnaire.....	90
8.	Annex 02: Factories questionnaire.....	97
