

## Table of Contents

Table of contents .....	II
List of Tables .....	VII
List of Figures .....	VIII
List of Appendices .....	XII
List of Abbreviations .....	XIII
Publications .....	XIV
Abstract .....	XV
المستخلص .....	XVI
<b>Chapter One: Introduction.....</b>	<b>1</b>
1.1 Introduction and Motivation .....	1
1.2 Thesis Statement and Objectives.....	4
1.3 Contributions .....	5
1.4 Overview of the thesis.....	6
<b>Chapter Two: Background .....</b>	<b>7</b>
2.1 Introduction .....	7
2.2 Object Role Modeling (ORM) .....	7
2.3 Description Logics (ALC, SHOIN and SROIQ) .....	9
2.4 Web Ontology Language (OWL 2) .....	13
2.5 Related Works.....	16
<b>Chapter Three: Mapping ORM into SROIQ/OWL 2.....</b>	<b>22</b>
3.1 Introduction .....	22
3.2 Use Case.....	22

<b>3.3 Object-Types and relations</b> .....	<b>25</b>
<b>3.3.1 Binary and N-ary relationships (<math>n \geq 1</math>)</b> .....	<b>25</b>
<b>3.3.2 Unary Relationship</b> .....	<b>26</b>
<b>3.4 Subtypes</b> .....	<b>27</b>
<b>3.5 Total Constraint</b> .....	<b>27</b>
<b>3.6 Exclusive Constraint</b> .....	<b>27</b>
<b>3.7 Mandatory Constraints</b> .....	<b>28</b>
<b>3.7.1 Role Mandatoey</b> .....	<b>28</b>
<b>3.7.2 Disjunctive Mandatory</b> .....	<b>28</b>
<b>3.8 Uniqueness Constraints</b> .....	<b>29</b>
<b>3.8.1 Role Uniqueness</b> .....	<b>29</b>
<b>3.8.2 Predicate Uniqueness</b> .....	<b>29</b>
<b>3.8.3 External Uniqueness</b> .....	<b>29</b>
<b>3.9 Frequency Constraints</b> .....	<b>30</b>
<b>3.9.1 Role Frequency Constraints</b> .....	<b>30</b>
<b>3.9.2 Multipl-t-role Frequency Constraints</b> .....	<b>30</b>
<b>3.10 Value Constraint</b> .....	<b>31</b>
<b>3.11 Subset Constraint</b> .....	<b>31</b>
<b>3.12 Equality Constraint</b> .....	<b>32</b>
<b>3.13 Exclusion Constraint</b> .....	<b>33</b>
<b>3.14 Ring Constraints</b> .....	<b>33</b>
<b>3.14.1 Symmetric (sym)</b> .....	<b>33</b>
<b>3.14.2 Asymmetric (as)</b> .....	<b>33</b>
<b>3.14.3 Antisymmetric (ans)</b> .....	<b>34</b>

3.14.4 Irreflexive (ir).....	34
3.14.5 Acyclic (ac) .....	34
3.14.6 Intransitive (it) .....	34
3.15 Objectified Relation.....	35
3.16 Syntactic Sugar for ORM/OWL 2 .....	35
3.16.1 Identity Constraint .....	35
3.16.2 Total and Exclusive Constraints .....	36
<b>Chapter Four: Extending ORM for Full representation of OWL 2.....</b>	<b>37</b>
4.1 Introduction .....	37
4.2 Equivalent Classes .....	38
4.3 Disjoint Classes .....	38
4.4 Intersection of Class Expressions.....	39
4.5 Class Complement .....	40
4.6 Universal and Empty Classes.....	41
4.7 Universal and Empty Object/Data Properties.....	42
4.8 Class Assertions .....	42
4.9 Individual Equality.....	43
4.10 Individual Inequality.....	43
4.11 Property Assertions.....	44
4.11.1 Positive Object/Data Property Assertion.....	44
4.11.2 Negative Object/Data Property Assertion.....	44
4.12 Reflexive (ref).....	45
4.13 Transitive (tra).....	45
4.14 Non Notational Expressions.....	46

4.15 Use Case.....	47
<b>Chapter Five: Evaluation .....</b>	<b>49</b>
5.1 Introduction .....	49
5.2 Evaluation Process for mapping ORM into OWL 2 .....	50
5.2.1 Binary Relation (Rule 1) .....	50
5.2.2 Unary Relation (Rule 2) .....	51
5.2.3 Subtype (Rule 3).....	52
5.2.4 Total constraint (Rule 4) .....	53
5.2.5 Exclusive Constraint (Rule 5).....	54
5.2.6 Role Mandatory (Rule 6) .....	55
5.2.7 Disjunctive Mandatory (Rule 7).....	55
5.2.8 Role Uniqueness (Rule 8) .....	55
5.2.9 Role Frequency Constraints (Rule 9).....	56
5.2.10 Value Constraint (Rule 10) .....	57
5.2.11 Subset Role (Rule 11) .....	58
5.2.12 Subset Binary Role (Rule 12).....	58
5.2.13 Equality Role (Rule 13) .....	59
5.2.14 Equality Binary Role (Rule 14) .....	60
5.2.15 Exclusion Role (Rule 15) .....	61
5.2.16 Exclusion Binary Role (Rule 16) .....	62
5.2.17 Symmetric Ring Constraint (Rule 17) .....	62
5.2.18 Asymmetric Object Property (Rule 18).....	63
5.2.19 Irreflexive Ring Constraint (Rule 19).....	64
5.2.20 Syntactic Sugar for ORM/OWL 2 .....	64

5.2.20.1 Identity constraint .....	64
5.2.20.2 Total and Disjoint Union constraint .....	65
5.3 Evaluation Process of extending ORM for full representation of OWL 2.....	66
5.3.1 Equivalent Classes .....	67
5.3.2 Disjoint Classes .....	68
5.3.3 Intersection of Class Expressions.....	69
5.3.4 Class Complement .....	69
5.3.5 Class Assertions .....	70
5.3.6 Individual Equality.....	71
5.3.7 Individual Inequality.....	71
5.3.8 Positive Object/Data Property Assertion.....	72
5.3.9 Negative Object/Data Property Assertion.....	72
5.3.10 Reflexive (ref).....	73
5.3.11 Transitive (tra).....	73
Chapter Six: Implementation of Mapping between ORM and OWL 2 .....	75
6.1 Introduction .....	75
6.2 DogmaModeler.....	75
6.3 Extending DogmaModeler .....	76
Chapter Seven: Conclusion and Recommendations for Future Works .....	82
7.1 Conclusion .....	82
7.2 Recommendations for Future Work.....	84
References.....	85
Appendices .....	90
Publications .....	109
